Severe Weather Outlook Saturday, July 08, 2023

Hazardous Weather

Saturday's Severe Storm Potential: 6 pm - 10 pm

Weather Forecast Office
Amarillo, TX
Issued Jul 08, 2023 3:45 AM CDT

Saturday brings yet another round of potential severe thunderstorms during the evening and overnight hours. The primary concern will be damaging winds to 70 mph but hail to the size of golf balls will also be possible, especially during the evening hours. Flash flooding may also occur. A tornado or two may occur around the 6 to 10 pm time frame as well.

Heat Advisory for Areas out West

This Afternoon and Early Evening

Weather Forecast Office
Midland/Odessa, TX
Issued July 8, 2023 2:04 AM CT

NWSMidland

weather.gov/mat

A Heat Advisory is in effect this afternoon and early evening for the Guadalupe, Delaware, Davis, and Chinati Mountains, the Chisos Basin, Davis Mountains Foothills, Marfa Plateau, and Brewster County. Temperatures up to 99 degrees are expected in the mountain areas, up to 103 degrees across the foothills, Marfa Plateau, and Central Brewster County, and up to 110 degrees along the Rio Grande. Practice heat safety! Drink plenty of water, even if you don't feel thirsty. Limit time spent outdoors during the hottest time of day. And, NEVER leave children or pets in a hot car. Look before you lock!

Hazardous Weather

Hot conditions with afternoon high temperatures 105 to 109 degrees through Saturday across portions of the lowlands and lower Rio Grande Valley. The very hot temperatures persist into next week with the likelihood of expansion and extension of the product.

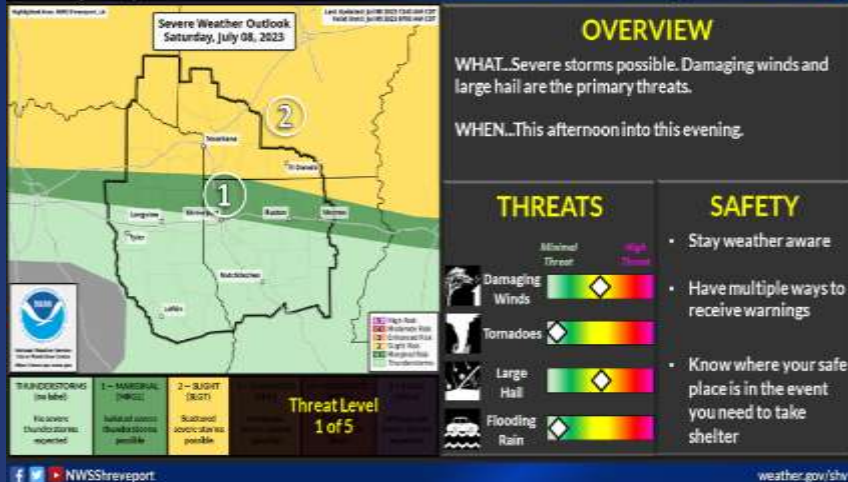

There is the potential for isolated severe thunderstorms late Saturday evening through mid-morning Sunday. Large hail and damaging wind gusts are primary severe hazards, along with heavy rainfall producing localized flooding possible.

Hazardous Weather

Severe Weather Risk - Today & Tonight

Valid through Sunday 7:00 AM CDT

Weather Forecast Office
Shreveport, LA
Issued July 8, 2023 1:38 AM CDT

There's a risk for severe thunderstorms this afternoon into the evening across mainly portions of southeast Oklahoma, northeast Texas, and southern Arkansas. Damaging winds and large hail will be the primary threats.

Hot and Humid Today

Heat Index values 105-113

Weather Forecast Office
Corpus Christi, TX
Issued Jul 08, 2023 4:54 AM CDT

Hot and humid conditions return to south Texas today with highs ranging from the upper 80s coast to near 103 degrees over the western Brush Country. Isolated showers or storms will be possible over the inland coastal plains this afternoon while scattered showers and storms will be possible over the waters. Afternoon heat index values will range from 105 to 113 degrees.
